## Summary

Computer Engineering student at Thapar Institute of Engineering and Technology, exploring software development and building small personal projects. Learning backend, web development, and AI/ML using Python and its libraries. Interested in prompt engineering and AI tools.

## Education

**Thapar Institute of Engineering & Technology** — Patiala, Punjab
*Bachelor of Engineering in Computer Engineering* — *CGPA: 7.52 — Expected Graduation: 2027*

**ODM Public School** — Bhubaneswar, Odisha
*Senior Secondary (CBSE), Class 12th* — *Percentage: 91% — Graduated: 2023*

## Skills

**Languages**: Python, JavaScript, C++, HTML, CSS

**Frameworks/Tools**: FastAPI, React.js (learning), Streamlit, Git, Tailwind CSS, Node.js, Express.js

**Libraries**: NumPy, Pandas, Matplotlib

**Others**: Prompt Engineering (interested), Spotify API, Beginner at Backend, GenAI Tools

## Projects

### Spotify AI Agent
*FastAPI + Speech Recognition + CLI* — *2025*

- Built two versions of a Spotify-controlling AI agent: one using keyboard inputs and another using voice commands. Implemented features like play, pause, skip, and volume control using natural commands.

### FinSight – AI-Powered Personal Finance Tracker
*Streamlit + OpenAI API + Pandas* — *2025*

- Categorized transactions from bank statements using GPT and generated insights/tips.
- Enabled CSV uploads, visual dashboards, and export to PDF.

### Basic Web Projects
*HTML, CSS, JavaScript* — *2025*

- Created beginner projects like a Tic-Tac-Toe game, portfolio website, and responsive UI components.

## Extracurricular Activities

### Fine Arts and Photography Society, Thapar University
*Senior Member* — *2023 – Present*

- Mentored juniors during recruitment; contributed to design, videography, and media at campus events.

**Personal Interests:** Fitness, Videography
